 Reefer and perishable

Our commitment and trustworthiness were once again recognized. This time by Brazillian Federal Customs, by certifying DC Logistics Brasil as AEO (Authorized Economic Operator).

The certification, oficialized and published on Government's Official Diary on 26th December 2017, gives us the status of a safe, reliable and efficient company at our operations. A title that strengthens our reliability and proves the high quality of our work.

WHATSAPP

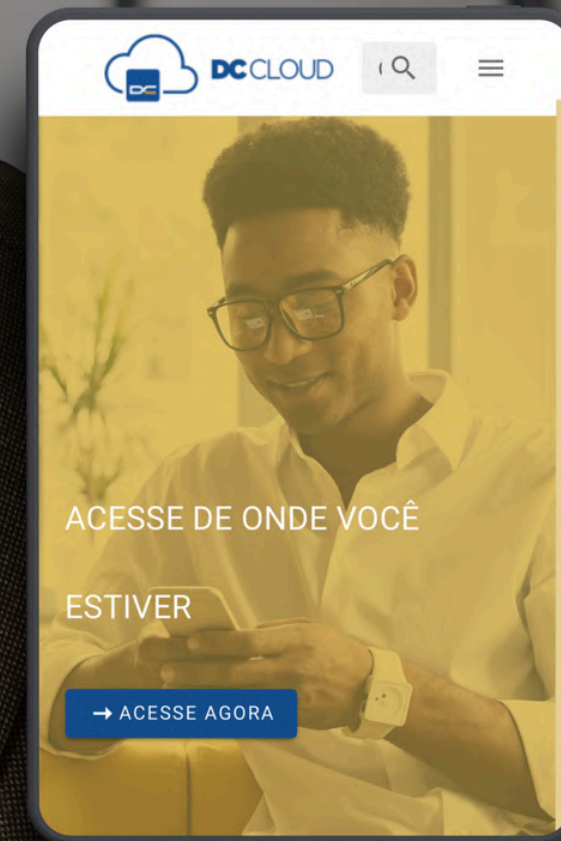

We provide tools that facilitate visibility of Quotations, Shipments, Invoices and KPIs.
Speeding up the exchange of information and ensuring better results for everyone involved.

DC Cloud

You in charge.

Quotations, Shipments, Invoices, Receipts, Invoices, KPIs. Everything just a few clicks away. Nothing goes unnoticed: you have access to the location and status of your cargo at any time. We also notify you at each stage of the process.

DC Quality Management System

DC Logistics Brasil's commitment led us to pursue the ISO 9001 standard. Our certification since 2002 guarantees and reinforces the quality of our services.

Environmental Responsibility

Among our environmental responsibility programs, the “Plantio DC” events became an absolute success based on the reviews we get from our partners worldwide year after year. The event consists in planting a tree for each shipment handled by DC during the whole month of June.

+67 thousand trees planted by our team

Environmental Responsibility

Through social and business responsibility strategies, policies and actions on the main sustainability topics, we were certified with the Committed Seal by EcoVadis.

A collaborative platform that allows companies to monitor the sustainable development performance of their practices, in more than 150 sectors and 110 countries.

Furthermore, we are signatories of the SDG/SC Movement – Sustainable Development Goals –, contributing towards a better, environmentally sustainable and economically balanced society.

Because our Future is now!

Social Seal with Awarded Project

The Itajaí Social Seal Program aims to encourage compliance with the 17 UN Sustainable Development Goals.

In the 2022 certification, DC received the FEATURED PROJECT AWARD for the “DC Logistics Brasil Internship Program”. It aims to develop Interns, encouraging them to take a leading role in carrying out their role and improving their professional attitude.
